**Creating Opportunities**

# EC-COUNCIL MEMBERSHIP. EXPLORE YOUR OPPORTUNITIES.

- **Aspen:** Gain access to the knowledge gateway of EC-Council - Aspen. Aspen is a one stop gateway to all of your security training needs. You can buy, learn, earn your credit points, certify, and share your feedback with us, all with an Aspen account. [aspen.eccouncil.org](https://www.aspen.eccouncil.org)

- **Hacker Halted:** Hacker Halted is a global series of Computer and Information Security conferences presented by EC-Council Foundation. The objective of the Hacker Halted conferences is to raise international awareness towards increased education and ethics in IT Security. [www.hackerhalted.com](http://www.hackerhalted.com)

- **Global CISO Forum:** EC-Council Foundation's Global CISO Forum is an invite-only, closed-door event gathering the highest level executives from across industries and countries to discuss the most pressing issues in information security. [ciso.eccouncil.org](https://ciso.eccouncil.org)

- **TakeDownCon:** TakeDownCon is a highly technical forum that focuses on the latest vulnerabilities, the most potent exploits, and the current security threats. The best and the brightest in the field come to share their knowledge, giving delegates the opportunity to learn about the industry's most important issues. [www.takedowncon.com](http://www.takedowncon.com)

- **Cyberlympics:** Global Cyberlympics is an online ethical hacking, computer network defense game, dedicated to finding the top computer network defense teams. Global Cyberlympics' goal is to raise awareness towards increased education and ethics in information security through a series of cyber competitions that encompass forensics, ethical hacking and defense. One key initiative for Global Cyberlympics is to foster an environment that creates child online protection through education. [www.cyberlympics.org](http://www.cyberlympics.org)

- **Awards & Recognition:** The world recognises the efforts of EC-Council in the domain of Information Security. A glimpse of the rewards and recognition by International bodies is a testimony of the fact. By being a member of an internationally acclaimed body opens up a plethora of opportunities for you to rise up in your career ladder. <https://www.eccouncil.org/Support/awards-and-recognition>

- **Techie Network:** Share and learn with your peer group on the Techie Network forum. A group of Information Security Professionals who have varied levels of industry experience; have secured and are securing their organisations from the threat of Cyber-crime.

## CodeRed

- **CodeRed:** CodeRed is EC Council's foray into the business of continuous education. With CodeRed we aspire to tap the market of professionals looking to upgrade their skills at a smaller ticket size and through the subscription model. By becoming a member, you can gain access to a large array of knowledge building series, including Monday Threat Briefings, CISO Executive series, and much more!

## Cyber Talks

- **Cyber Talks:** EC-Council University is constantly working towards the betterment of cyber community. Their corporate initiative, Cyber Talks, is aimed at raising awareness about the latest threats and developments in the world of cybersecurity. By becoming a member, you will gain access to these talks where we bring together the best of the industry on a common platform to share knowledge about the current global scenario in this field. <https://www.eccu.edu/cyber-talks/>

- **Cyber Q:** CyberQ offers online assessments for professionals to assess and hone their skills to meet the current infosec challenges. By becoming a member, job seekers and students can assess their skills, hone their skillset while understanding their strengths and weaknesses. The job givers or the corporate can assess the skills of the potential candidates and choose whether they fit the role or not. <https://cyberq.eccouncil.org/>

## EC-Council | Blog

- **EC-Council Blog:** EC-Council Blog is another knowledge sharing and cybersecurity awareness building initiative by EC-Council. By becoming a member, you can submit unlimited white papers and articles to be presented to the Knowledge Review Committee. Upon review, your article/white paper will be published on a platform that caters to both current and upcoming cybersecurity professionals from across the world. <https://blog.eccouncil.org>

- **Secure Campus:** Becoming a member of EC-Council automatically qualifies you to participate in Code Uncode - the annual secure coding competition by EC-Council where programmers from different countries participate to showcase their skill and talent. Annually organisations with the maximum best programmers are awarded the "Secure Campus" award. Also, you can nominate yourself or one of your employees to become the Campus Ambassador for Code Uncode.

EC-Council Continuing Education

- **EC-Council Continuing Education Program:** At EC-Council, we believe in continuous improvement, be it our trainings, our certifications, our employees, or our partners. We imbibe the same culture into our customers as well. InfoSec being a dynamic arena, it is always important to ensure that we are prepared, and upgrading knowledge is the best way of preparing oneself, and the ECE program does just that. Click here to know more about the program: <https://cert.eccouncil.org/ece-policy.html>

- **Advisory Boards:** Annually EC-Council organises and implements a number of initiatives to develop capacity and bridge the skill gap in the InfoSec domain. All of our initiatives are guided by internal and external committees who share their expertise to ensure excellence is achieved. Being a member ensures that your profile is given priority over others to be a part of these elite groups.

- **Learn from the Experts:** Another knowledge sharing initiative from EC-Council is the virtual event series. Becoming a member, you can nominate yourself to be a speaker at any of these virtual events, which not only will expose your skill to your peer group, but nominate you at our hall of fame as an subject matter expert.
